📍 Cairo, Eg

## SUMMARY

I am a highly skilled **Computer Engineer** and accomplished **Laravel Full Stack Developer**, with extensive expertise in **front-end technologies, database architecture**, and developing scalable, user-centric web applications. My portfolio includes a range of successful projects, showcasing my ability to integrate intuitive design with efficient backend solutions. Currently, I am leading the development of an advanced system aimed at optimizing the operations of charitable organizations, reflecting my dedication to leveraging technology for impactful and innovative solutions.

## EXPERIENCE

### Full Stack Laravel Developer

#### Freelancer

📅 2023 - Present   📍 Cairo, Egypt

Memrise is a platform that uses spaced repetition of flashcards to increase the rate of learning user-generated content for languages and other subjects

- **End-to-End Project Management:** Learned to independently handle full project lifecycles, from gathering client requirements to deploying scalable web applications using Laravel.
- **Advanced Front-End Development:** Enhanced skills in creating responsive, user-friendly interfaces with modern front-end technologies like Vue.js, React, and Bootstrap.
- **Database Integration and Optimization:** Mastered designing, integrating, and optimizing database systems for efficient, secure data management.
- **Client Communication and Collaboration:** Improved ability to communicate effectively with clients, understand their needs, and deliver tailored solutions while maintaining project timelines.

### Web Developer

#### future programming company

📅 2022 - 2023   📍 Gaza, Gaza Strip

A tech-driven company specializing in innovative software solutions, delivering high-quality web, mobile, and enterprise applications to meet diverse business needs.

- **Comprehensive Development Skills:** Enhanced my ability to build end-to-end web applications by integrating front-end interfaces with back-end logic using PHP and Laravel frameworks.
- **Database Design and Optimization:** Gained expertise in designing, managing, and optimizing relational databases to ensure efficient data handling and retrieval.
- **Problem-Solving and Debugging:** Developed strong problem-solving skills by troubleshooting complex issues and implementing robust, scalable solutions.
- **Collaboration and Teamwork:** Improved communication and teamwork by working closely with cross-functional teams to deliver high-quality projects on time.

## EDUCATION

### B.S. Computer Engineering

#### Islamic University of Gaza

📅 2020 - 2024   📍 Gaza, Gaza Strip

## SKILLS

### Front-end stack

**WordPress**   **HTML**   **XML**   **DOM**

**CSS**   **Sass**   **JS**   **Java**   **jQuery**

**React**   **VueJS**   **Typescript**

**Bootstrap**   **Git**

### Back-end stack

**Laravel**   **SQL**   **JSON**   **APIs**

**Node**   **Git**

### Data

**Redis**   **MongoDB**   **AWS**   **MySQL**

**Data Structures**   **OOP**   **Algorithms**

**Data Analysis**

### Development & Operations

**IBM Cloud**   **Version Control**

**Git/GitHub**   **Maven**
